CAUTION

Warning
Risk of falling

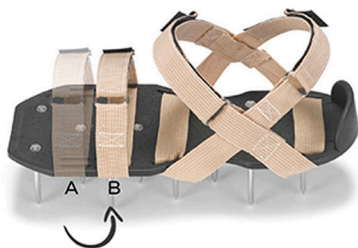

- Failure to read and follow instructions may result in injuries
- Use with caution
- Keep away from children's reach
- Must use work boots that cover your feet and ankles
- Make sure the Aerator Shoes are properly fit on your boots, the straps are secured and tight
- Use only on a flat lawn area
- Don't use Aerator Shoes for things other than its mentioned purpose
- Know your physical capabilities and keep garden activities within your limitations
- Do not use Aerator Shoes if you suffer from loss of balance or unsteadiness
- Prior to use, always inspect Aerator Shoes for defects or damage, such as cracked parts or loosen nuts
- Walk slowly, watch over your steps and be careful from twisting your ankle and fall
- Be careful about any sprinkler system or any large roots under the ground
- Be careful, do not step on humans or animals while using the Aerator shoes
- Max user weight 220 lbs

Prepare

- Mow the lawn before you aerate
- Check the moisture level of your yard:
The best is softened earth
If its muddy & sticky → wait for a few days
If its dry & hard → water your lawn & wait for a few days
- Sprinklers - if you have sprinklers, mark where each one is located so that you can avoid them.
- Rake debris like leaves, sticks, stones and other plant matter from the yard to make sure nothing obstructs your path

One size fits most

For woman's size 6 - 9
Move strap's position from A to B

Fit the "Sandal"

1 Put Aerator Shoes into the ground and let the spikes penetrate the soil.

2 Unfasten the the Velcro straps by pulling the strap tip.

3 Put your foot on the plastic base and pass through the straps.

Tighten all 3 straps and fasten the straps.

What's in the box?

• 2 Assembled lawn aerator shoes • Wrench • Instructions

Start Aeration

- Watch out from stepping on stones
- Aim 1 step per square foot
- Walk slowly
- Fertilize your yard after you aerate it. Help your lawn spring back from aeration

Clean

You may clean your shoes with water and let them dry
